Helping Busy Women and Mothers To Take Control of their Time and Space

Studies have shown that organization skills transfer from home to work and vice versa. Why suffer unnecessarily when you can learn the skills needed to succeed at home *and* in the workplace. It's also a fact that women, who work outside the home, still take on most of the household responsibilities. No wonder they're exhausted and frustrated and try unsuccessfully every year to "get organized".

Lifestyle Organizing Expert, Jacquie Ross will teach your group easy organizing and time management tips that they can apply immediately, both at work and home. Jacquie brings energy, home truths and great ideas to help individuals get started on the road to organization, plus your group will learn strategies to be organized for life. Jacquie is available for on-site time management classes and off-site (retreats/conferences) presentations. See topics below.

Jacquie's most requested presentation/class topics include:

Take Control of Your Clutter Before it Takes Control of You!

A presentation to help busy women to take control of the clutter in their home and home office.

Take Back Control of Your Household Paper and Mail

A presentation or workshop with tips and techniques for dealing with household paper and mail.

Jacquie's most requested on-site training class:

Take Back Control of Your Time and Get More Done!

A time management workshop for workplace professionals (3 hours).
